DETAILED ACTION

Allowable Subject Matter

Claims 1-11 are allowed.

Claims 15-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Election/Restrictions

Applicant's election with traverse of Group I in the reply filed on 11/5/04 is acknowledged. The traversal is on the ground(s) that there is no search burden. This is not found persuasive because the searches for the three Groups are not co-extensive such that there is a search burden.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 14,18 are rejected under 35 U.S.C. 102(b) as being anticipated by Bowen. This patent discloses an annular grinder having two sets of cutting edges. Note that the term 'hook' is broad enough to read on the curved cutting edge of element 21.
